

BARA NSAIBIA

Web Developer & Multimedia Designer | IT Student

+216 92 049 451 | baransaibia0@gmail.com | Sidi Bouzid, Tunisia

PROFESSIONAL PROFILE

Motivated and versatile IT student specialising in Multimedia and Web Development, with hands-on experience spanning front-end engineering, graphic design, and multimedia production. Proficient in multiple programming languages and design tools, with a demonstrated ability to deliver creative, user-focused digital solutions in both freelance and institutional settings. Completed an internship at one of Tunisia's largest industrial companies and a second placement at a government ministry, building strong foundations in professional work environments. Actively seeking an internship or junior role in web development or multimedia to further advance technical expertise and contribute to innovative projects.

EDUCATION

Bachelor of Technology — Multimedia & Web Development

Institut Supérieur des Études Technologiques (ISET) de Sidi Bouzid, Tunisia

Currently in Second Year | 2025 – 2026

- Specialisation covering front-end development, multimedia design, and core computer science fundamentals.
- Relevant coursework: Web Technologies (HTML/CSS/JS), Object-Oriented Programming (Java), Database Systems, Graphic Design, and Video Production.

PROFESSIONAL EXPERIENCE

Tunisian Youth Representative | First Arab Meeting on "The Impact of Social Media on Youth" — *Rabat, Morocco*
June 2026

Selected as one of only two official representatives for Tunisian youth by the Moroccan Ministry of Youth, Culture and Communication in collaboration with the League of Arab States.

Participated actively in high-level discussions and workshops focusing on digital safety, mental health online, combating digital extremism, and promoting responsible digital citizenship.

Collaborated with youth delegations from across the Arab world to formulate strategic recommendations for responsible digital participation and youth empowerment.

Front-End Developer & Multimedia Designer | Freelance — *Remote / Tunisia*
Since 2023

- Designed and developed custom front-end interfaces for client websites using HTML, CSS, JavaScript, and the Laravel framework, delivering responsive, visually compelling digital experiences.
- Created professional brand identities including logo design, visual assets, and marketing materials using Adobe Photoshop and Illustrator.
- Produced and edited promotional video content using Adobe Premiere Pro, managing projects from initial concept through to final delivery.
- Managed client communications and project timelines independently, consistently meeting deadlines and exceeding expectations.

IT Department Intern | Compagnie des Phosphates de Gafsa (CPG) — *Gafsa, Tunisia*
January 2025 – February 2025

- Completed a structured internship within the Technology Department of one of Tunisia's leading state-owned mining enterprises.
- Gained practical exposure to enterprise IT infrastructure, internal systems management, and technical support workflows.
- Strengthened problem-solving, professional communication, and workplace discipline within a large-scale industrial environment.

January 2026 – February 2026

- Contributed to IT support activities within a government ministry setting, developing an understanding of public-sector digital infrastructure.
- Assisted with technical tasks and documentation, reinforcing skills in IT administration and organisational processes.
