SOCIAL & ACADEMIC EXPERIENCE REPORT

SOCIAL & ACADEMIC
EXPERIENCE REPORT

A comprehensive portfolio of professional engagements, civic contributions & institutional collaborations

Prepared by

Bara Nsaibia

Academic Year 2026– 2027

Confidential · For Academic & Professional Use Only

INTRODUCTION

This report presents a detailed and authentic account of my social, civic, and professional experiences accumulated in parallel with my academic journey. It aims to provide a transparent and comprehensive portrait of my commitments beyond the classroom — spanning institutional collaborations, civic engagement, associative life, and formal recognitions received from various organizations.

Each experience is documented with its corresponding visual evidence — photographs, certificates, and official documents — accompanied by a precise description of the context, the objectives pursued, the organizations involved, and the skills and lessons gained. Together, these experiences reflect a consistent engagement with the professional world and a genuine desire to contribute meaningfully to society.

INTERNATIONAL REPRESENTATION — ARAB YOUTH MEETING

Organization: Moroccan Ministry of Youth, Culture and Communication & League of Arab States
Context: Official Tunisian Youth Representation & International Gathering

Being selected as one of only two young representatives from Tunisia to take part in this Arab gathering was both a privilege and a responsibility. Representing my country in such an inspiring environment was a valuable experience that allowed me to engage with passionate young people from across the Arab world and contribute to meaningful conversations about the challenges and opportunities of the digital era.

During this meeting, organized by the Moroccan Ministry of Youth, Culture and Communication in collaboration with the League of Arab States, I had the opportunity to participate in discussions and workshops focused on key topics including digital safety, mental health online, combating hate speech and extremism, and promoting responsible digital participation.

Beyond the knowledge gained, this experience was a true opportunity for personal growth — learning from different perspectives, building new connections, and discovering how young people can play an active role in creating a more positive and responsible digital environment. Proud to have represented Tunisia and grateful for this opportunity to be part of a wider Arab youth community working towards a more aware, connected, and empowered future.

Bara Nsaibia representing Tunisia at the First Arab Meeting in Rabat, Morocco

COOPERATIVE DIALOGUE — ARAB MEETING ON SOCIAL MEDIA

Organization: Moroccan Ministry of Youth, Culture and Communication & League of Arab States
Context: Official Delegation Group & Collaborative Workshops

The First Arab Meeting served as an international platform for Tunisian youth to engage in collaborative workshops alongside fellow delegations from across the Arab world. By participating in roundtable discussions and interactive panels, delegates formulated strategic frameworks and shared regional best practices. This collective effort highlighted the role of youth leadership in driving policy and advocacy for digital safety and responsible media engagement.

Official delegations during the First Arab Meeting on "The Impact of Social Media on Youth"

OFFICIAL ATTESTATION — MINISTERIAL PROGRAMME

Organization: Ministry of Women, Children, Elderly and Families — Republic of Tunisia
Type of Document: Official Certificate of Participation

The following certificate constitutes an official attestation delivered by the Ministry of Women, Children, Elderly and Families of the Republic of Tunisia, recognizing my active participation in a nationally scoped development program. This ministry-level recognition confirms my involvement in a team mandated to design and deploy a digital management system used to monitor budget allocation and evaluate the operational effectiveness of social projects across all 24 Tunisian governorates.

This type of attestation holds significant institutional weight, as it is issued directly by a government ministry and demonstrates that my contribution was formally acknowledged at the highest administrative level. It represents not only a technical achievement but also a mark of trust placed in me by a public institution operating at a national scale.

Key interface of the minster's program

Objective: To develop and maintain a monitoring system enabling real-time tracking of public social expenditures and project performance across Tunisia's 24 governorates, under the direct supervision of the Ministry.

Tunis Le : 03 /02/ 2026

Attestation de stage

Je soussigné **Mr Mohamed Raouf Zaier** directeur de la Direction de l'organisation, méthodes et de l'informatique au ministère de la Famille, la femme, l'enfance et des Seniors

Atteste par la présente que **Mr Bara Nsaïbia** étudiant inscrit à l'institut Supérieur des études technologiques de Sidi Bouzid et titulaire de la CIN N° 15270939

Dans le cadre du Projet de Perfectionnement au sein de la Direction

Encadré par **Mr Amine Cherif** Ingénieur en Informatique pendant Un mois et ce de 05 janvier 2026 au 31 Janvier 2026.

Cette attestation est délivrée à l'intéressée pour servir et valoir ce que de droit.

Directeur Organisation et Méthodes et Informatiques

ZAIER Mohamed Raouf

- *Internship certificate— Ministry of Women, Children, Elderly and Families, Tunisia*

INSTITUTIONAL MEETING — HEAD OF THE NATIONAL EDUCATION SYNDICATE

Organization: Tunisian Educational Coalition Association— Republic of Tunisia

Context: Official Bilateral Meeting — Digitalization of education

Digital transformation in education emerged as a central theme of our discussion, highlighting its strategic importance in modernizing the Tunisian academic system. We explored how integrating digital tools, online platforms, and data-driven approaches can enhance the quality of learning, improve accessibility, and better prepare students for the evolving demands of the global workforce. Particular attention was given to the challenges of implementation, including infrastructure gaps, teacher training, and ensuring equitable access for all students. This exchange underscored that successful digitalization is not merely a technical shift, but a comprehensive reform that requires collaboration between policymakers, educators, and students to build a more resilient and future-ready education system. *open meaningful pathways for systemic change.*

- *Meeting with the Head of the National Education Syndicate of Tunisia — Formal institutional visit*

MEDIA APPEARANCE — RADIO INTERVENTION & DIGITAL AWARENESS ADVOCACY

Type of Activity: Official Radio Participation / Public Speaking Engagement
Platform: Radio Essaida FM
Affiliated Initiatives: Jaridaty, Maison de Jeunes, Club Radio Web Sidi Ali Ben Aoun

The participation presented below reflects my intervention on Radio Essaida FM, where I was invited to discuss my podcast addressing critical issues related to data security and the protection of personal information. This media appearance was conducted within the framework of my ongoing involvement in the Jaridaty initiative, in which I have been actively engaged for over two years.

During this intervention, I highlighted the growing importance of digital awareness, particularly among youth, and explored the risks associated with data misuse, privacy breaches, and online exposure. The discussion emphasized practical strategies for protecting personal information and promoting responsible digital behavior in an increasingly connected world.

This experience demonstrates my ability to communicate complex technological topics to a broader audience, bridging the gap between technical knowledge and public understanding. It also reflects my sustained commitment to civic engagement through media, as well as my active role within youth structures such as the Maison de Jeunes and the Club Radio Web of Sidi Ali Ben Aoun. Such participation reinforces my profile as both a digital advocate and an effective communicator in matters related to technology and society.

AI FUNDAMENTALS WORKSHOP — LEADERSHIP & OFFICIAL RECOGNITION

Type of Activity: Self-led Workshop / Public Speaking Engagement
Recognition: Honored by the Regional Delegate for Youth and Sports

I'm happy to look back on a meaningful experience: leading an Artificial Intelligence workshop, where I had the opportunity to share what I've learned about AI, explore practical use cases, and engage with participants through discussions and hands-on examples.

For me, this workshop was more than just a presentation. It was an opportunity to communicate, inspire curiosity, and make technology more accessible to others.

I'm also deeply honored to have been recognized by the Regional Delegate for Youth and Sports for my contribution. A special moment that motivates me to keep learning, building, and sharing.

Thank you to everyone who attended, participated, and contributed to making this experience memorable.

Learn. Build. Share. Inspire.

Leading the Artificial Intelligence workshop

Honored by the Regional Delegate for Youth and Sports

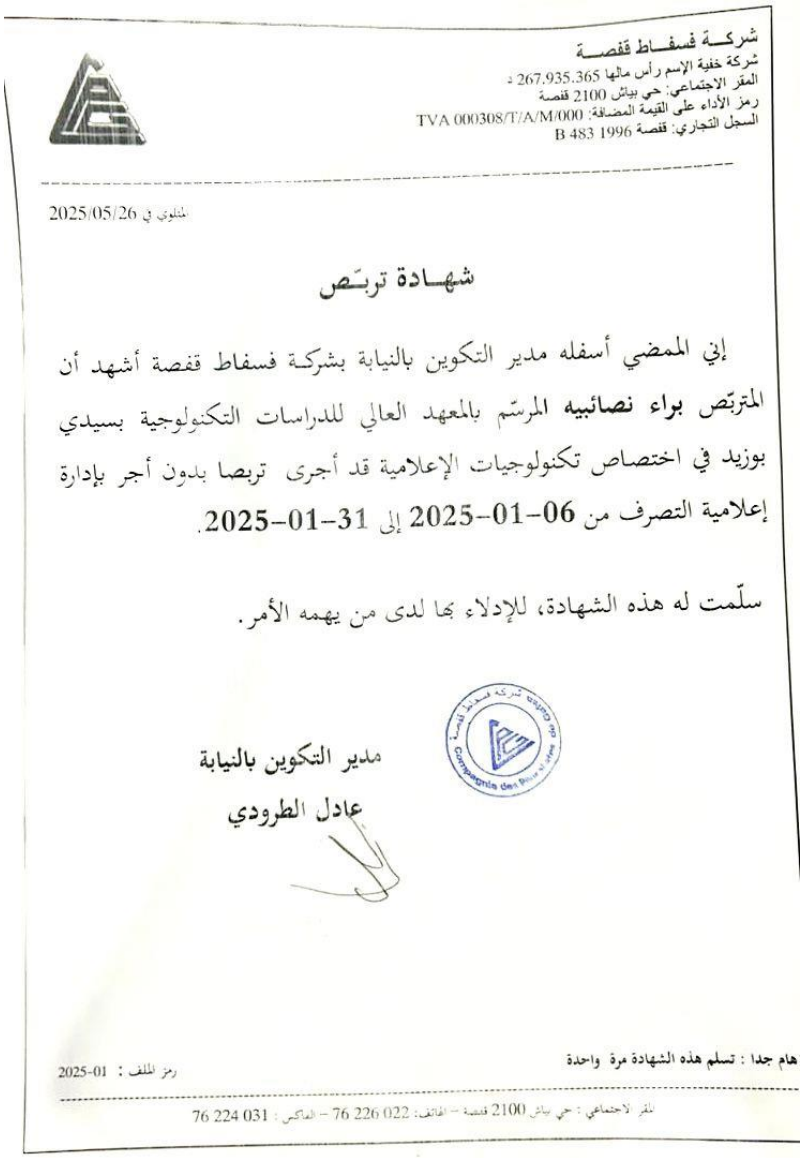

INTERNSHIP CERTIFICATE — SOFTWARE DEVELOPMENT EXPERIENCE

Type of Document: Official Internship Certificate
Issuing Authority: Compagnie des Phosphates de Gafsa (CPG)

The certificate presented below formally attests to the completion of an internship within the development unit of the Compagnie des Phosphates de Gafsa, one of the largest and most strategic industrial enterprises in Tunisia. This experience was carried out in a professional environment where digital solutions play a key role in optimizing operations and supporting large-scale industrial processes.

During this internship, I contributed to development-related tasks, gaining practical exposure to real-world systems, workflows, and technical challenges. The placement provided an opportunity to strengthen my skills in software development, problem-solving, and teamwork within a structured corporate setting.

Internships of this nature are granted based on selection and performance, and they serve as credible evidence of professional readiness. This certificate reflects not only my technical involvement but also my ability to integrate into a major organization and engage effectively in a high-responsibility environment, reinforcing my profile in the fields of technology and digital transformation.

PRESTIGIOUS CERTIFICATION — COMPUTER SCIENCE FOUNDATIONS

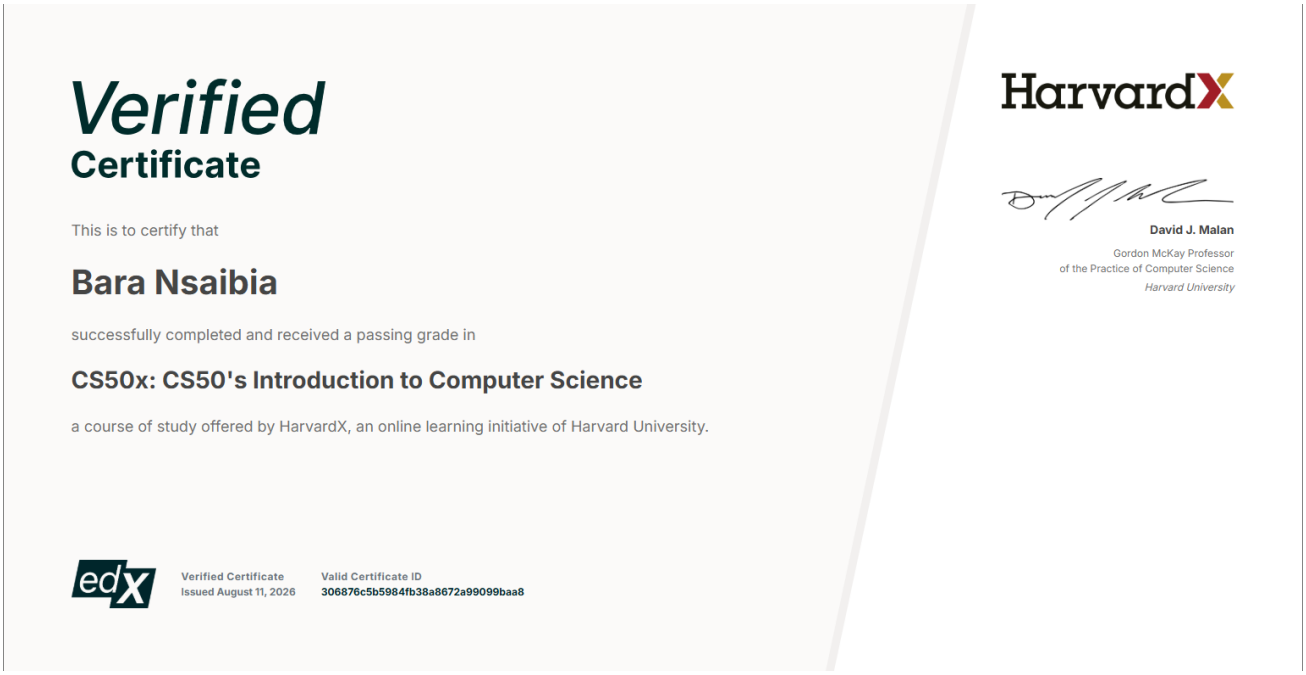

Type of Content: High-Value Academic Certificate
Issuing Authority: Harvard University via HarvardX

The certificate presented below represents one of the most significant academic achievements in my portfolio: the successful completion of *CS50's Introduction to Computer Science (CS50x)*, a globally recognized program delivered by Harvard University through its HarvardX platform.

This certification is widely regarded as a benchmark in foundational computer science education, covering essential topics such as algorithms, data structures, programming fundamentals, and problem-solving methodologies. The program is known for its rigor, requiring the completion of challenging problem sets and projects that test both analytical thinking and practical coding skills.

Obtaining this certificate reflects a high level of discipline, perseverance, and intellectual engagement, as CS50x is recognized internationally for its demanding standards and academic excellence. It is not merely a participation record, but a strong validation of core technical competencies aligned with global best practices in computer science.

As part of my portfolio, this certification significantly strengthens my academic and professional positioning, demonstrating my ability to succeed in a world-class learning environment and to master fundamental concepts that underpin advanced studies and careers in technology.

PROFESSIONAL CERTIFICATION — SQL ASSOCIATE

Type of Document: Official Professional Certification
Issuing Authority: DataCamp

The certificate presented below confirms that I have been certified as SQL Associate by DataCamp on November 8, 2026. This professional certification validates practical competence in working with relational databases using SQL, a core skill for data-driven web and software development.

SQL proficiency complements my web development profile, supporting the design, querying, and management of the databases that power the applications I build. Holding an independently issued certification, identified by the unique certificate number SQA0010972934423, adds a verifiable proof of this skill to my academic and professional portfolio.

IELTS ACADEMIC — ENGLISH LANGUAGE PROFICIENCY CERTIFICATION

Type of Document: Official Test Report Form (TRF) — Language Proficiency Certification
Issuing Authority: IELTS (jointly owned by the British Council, IDP IELTS, and Cambridge University Press and Assessment) — Ofqual regulated

This document certifies the results of the IELTS Academic test, an internationally recognized English language proficiency examination used for academic, professional, and immigration purposes worldwide. As an Ofqual-regulated qualification, it carries formal recognition equivalent to the Cambridge English Level 1 Certificate in English, ensuring credibility and acceptance by universities, employers, and institutions globally.

The test assessed proficiency across the four core language competencies — Listening, Reading, Writing, and Speaking — resulting in an Overall Band Score of 5.5, corresponding to CEFR Level B2 (upper-intermediate). This reflects a solid working command of English, including the ability to understand complex texts, communicate effectively in professional and academic contexts, and engage confidently in both written and spoken exchanges, with particular strength demonstrated in the Speaking component (6.5).

Holding a certified IELTS score adds significant value to my profile as a candidate for international academic and professional opportunities. It formally validates my English proficiency in a globally standardized and independently verifiable format, complementing my technical certifications by demonstrating readiness to work, study, and collaborate effectively in English-speaking or international environments.

PROFESSIONAL CERTIFICATION — DIGITAL SKILLS VALIDATION/GEMINI

Type of Document: Official Training Certificate
Issuing Authority: Google Gemini

The certificate presented below attests to the successful completion of a structured training program delivered through Google Gemini, followed by a formal evaluation process. Unlike basic participation attestations, this certification was awarded only after passing a validation test designed to assess both theoretical understanding and practical application of the concepts covered.

This training experience provided high-value exposure to advanced digital competencies, particularly in areas related to artificial intelligence, modern tools, and innovative technological practices. The certification therefore reflects not only attendance, but a demonstrated level of proficiency and the ability to engage critically with the material.

Certificates obtained through such rigorous processes carry significant weight in both academic and professional contexts. They serve as credible indicators of skill acquisition, discipline, and commitment to continuous learning—reinforcing my profile as someone actively investing in relevant and future-oriented competencies in the digital field.

▸ *Official certificate for a Gemini Course*

IBM DIGITAL BADGE — AI IN EDUCATION

Type of Document: Official Digital Badge / Certificate of Completion
Issuing Authority: IBM

The badge presented below certifies my successful completion of the *"Elevate Education with AI"* course delivered by IBM. This programme focused on the transformative role of artificial intelligence in modern education systems, exploring how AI-driven tools can enhance teaching methodologies, personalize learning experiences, and improve overall educational outcomes.

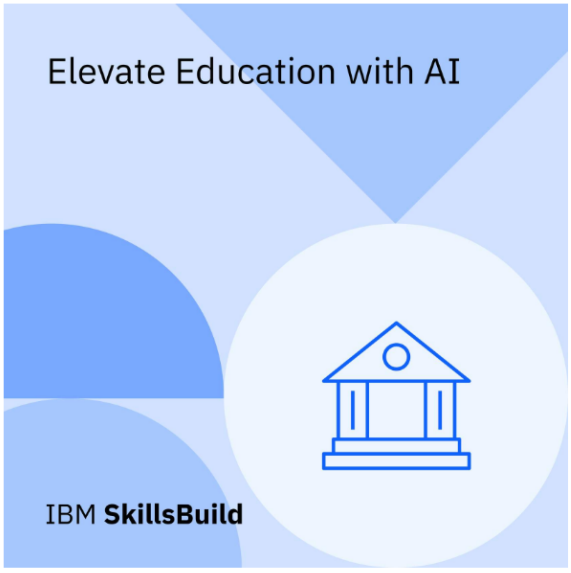

Through this training, I developed a practical understanding of how AI can be integrated into academic environments, including the use of intelligent systems for content generation, data analysis, and decision support. The course emphasized real-world applications, preparing participants to engage with emerging technologies in both educational and professional contexts.

IBM digital badges are widely recognized as credible indicators of skill acquisition and continuous learning. This certification strengthens my profile by demonstrating my ability to engage with cutting-edge technological concepts and apply them in meaningful domains such as education. It also reflects my commitment to staying aligned with global digital trends, particularly in the intersection of artificial intelligence and knowledge development, thereby adding significant value to my academic and professional portfolio.

Congratulations!

You've successfully completed the *Elevate Education with AI* module!

Download the following digital sticker and share it on social media to celebrate your achievement.

▸ *Official digital Badge for IBM education with AI*

MICROSOFT DIGITAL BADGES — GIT/GITHUB

Type of Document: Certificate of Completion
Issuing Authority: Anthropic

This certificate was awarded upon completion of "Claude Code in Action," a training programme by Anthropic focused on the practical application of Claude Code, an agentic coding tool designed to help developers plan, write, debug, and ship software directly from the command line and integrated development environments. The course covers real-world workflows for delegating coding tasks to an AI assistant capable of understanding project context, executing multi-step development actions, and collaborating with human developers throughout the software lifecycle.

Through this training, I gained hands-on experience with agentic AI-assisted development — going beyond simple code suggestions to working with an AI system capable of autonomously navigating codebases, running commands, and completing development tasks under my direction. This complements my existing experience with GitHub Copilot, broadening my practical exposure to the leading AI coding tools currently shaping the software industry.

As Claude Code is developed by Anthropic, a leading AI safety and research company, this certification reflects direct, hands-on familiarity with cutting-edge agentic AI development tools. It strengthens my technical profile by demonstrating adaptability across multiple AI-assisted development ecosystems and a continued commitment to mastering emerging tools that are redefining modern software engineering

▸ *Official certificate for a Claude code course*

MICROSOFT DIGITAL BADGES — GIT/GITHUB

Type of Document: Official Digital Badges / Git/Github Skills Certification
Issuing Authority: Microsoft

The badges presented below represent a series of certifications covering essential version control and collaborative development tools, including Git and GitHub fundamentals, GitHub's broader product ecosystem, cloud-based development environments, security practices, and modern AI-assisted coding approaches such as vibe coding. These programmes were designed to build a solid technical foundation in source control workflows and the collaborative infrastructure that underpins modern software engineering.

Through these certifications, I gained hands-on experience in managing version history with Git, collaborating on projects through GitHub, configuring code scanning to strengthen security practices, and developing directly in the cloud using GitHub Codespaces. I also explored emerging development paradigms like vibe coding, reflecting an openness to adapting my workflow as AI reshapes how software is built. The training emphasized practical, tool-based learning, giving me direct experience with the platforms and practices used daily by professional development teams.

Microsoft and GitHub certifications are widely recognized for their relevance to real-world development environments and industry best practices. This set of badges reinforces my profile as a developer with strong foundations in version control, collaborative workflows, and secure coding practices, while also demonstrating my readiness to embrace new AI-driven approaches to software development.

MICROSOFT DIGITAL BADGES _ARTIFICIAL INTELLIGENCE/COPILOT

Type of Document: Official Digital Badges / Skills Certifications
Issuing Authority: Microsoft

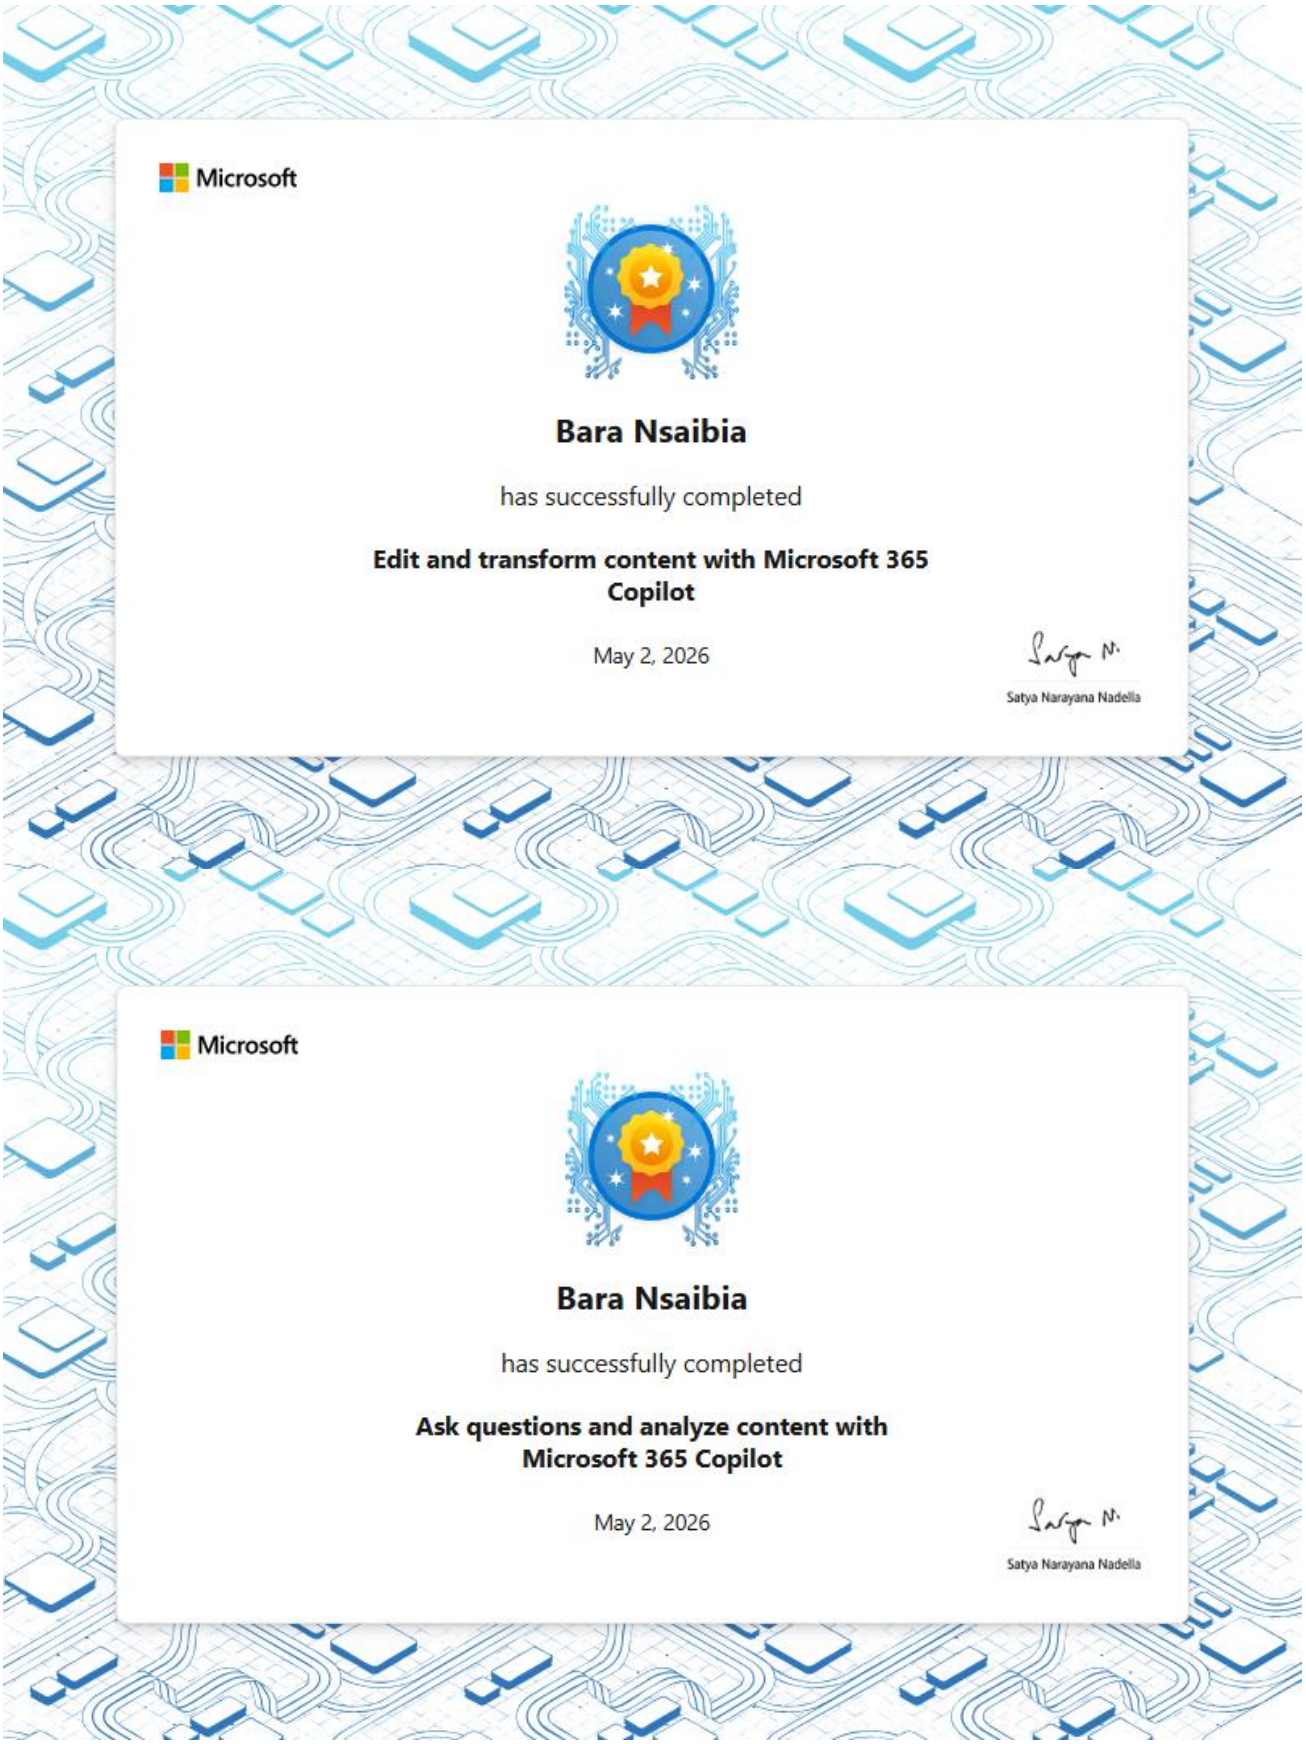

The badges presented below represent a series of certifications obtained through Microsoft's AI-focused learning initiatives, covering key areas such as prompt engineering, AI-driven task automation, and the effective use of intelligent systems in real-world scenarios. These programmes are designed to develop practical, industry-relevant skills aligned with the rapid evolution of artificial intelligence technologies.

Through these certifications, I gained hands-on experience in crafting optimized prompts, understanding AI model behavior, and leveraging AI tools to enhance productivity and problem-solving efficiency. The training emphasized applied learning, enabling me to translate theoretical concepts into concrete use cases across different domains.

Microsoft certifications and badges are widely recognized for their alignment with industry standards and emerging technological trends. This ensemble of badges significantly strengthens my profile by demonstrating not only my technical awareness of AI systems but also my ability to use them strategically. It reflects a proactive approach to mastering future-oriented skills, positioning me as a candidate capable of adapting to and contributing within AI-driven environments.

MICROSOFT DIGITAL BADGES — GITHUB COPILOT

Type of Document: Official Digital Badges / Skills Certifications
Issuing Authority: Microsoft

The badges presented below represent a series of certifications obtained through Microsoft's GitHub Copilot learning path, covering the full spectrum of AI-assisted software development — from foundational concepts and prompt engineering to advanced usage across IDEs, GitHub.com, and the command line, as well as responsible AI practices and enterprise-level management and customization. These programmes are designed to build practical, job-ready skills for integrating AI pair-programming tools into real-world development workflows.

Through these certifications, I gained hands-on experience in writing effective prompts for code generation, applying Copilot across different environments and use cases (including unit testing, documentation, code improvement, and feature development), and understanding the responsible and ethical considerations of using AI in software engineering. The training emphasized applied, task-based learning, enabling me to translate Copilot's capabilities into concrete productivity gains throughout the development lifecycle — from writing and refactoring code to generating tests and documentation.

Microsoft's GitHub Copilot certifications are recognized as a strong indicator of proficiency with one of the industry's leading AI development tools. This set of badges reinforces my profile as a developer who is not only comfortable working alongside AI-powered tools but who can leverage them strategically to write better code, work faster, and adopt best practices — reflecting a proactive commitment to staying current with the evolving landscape of AI-assisted software development.

MICROSOFT DIGITAL BADGES — CLOUD COMPUTING & SERVICES

Type of Document: Official Digital Badges / Cloud Skills Certification
Issuing Authority: Microsoft

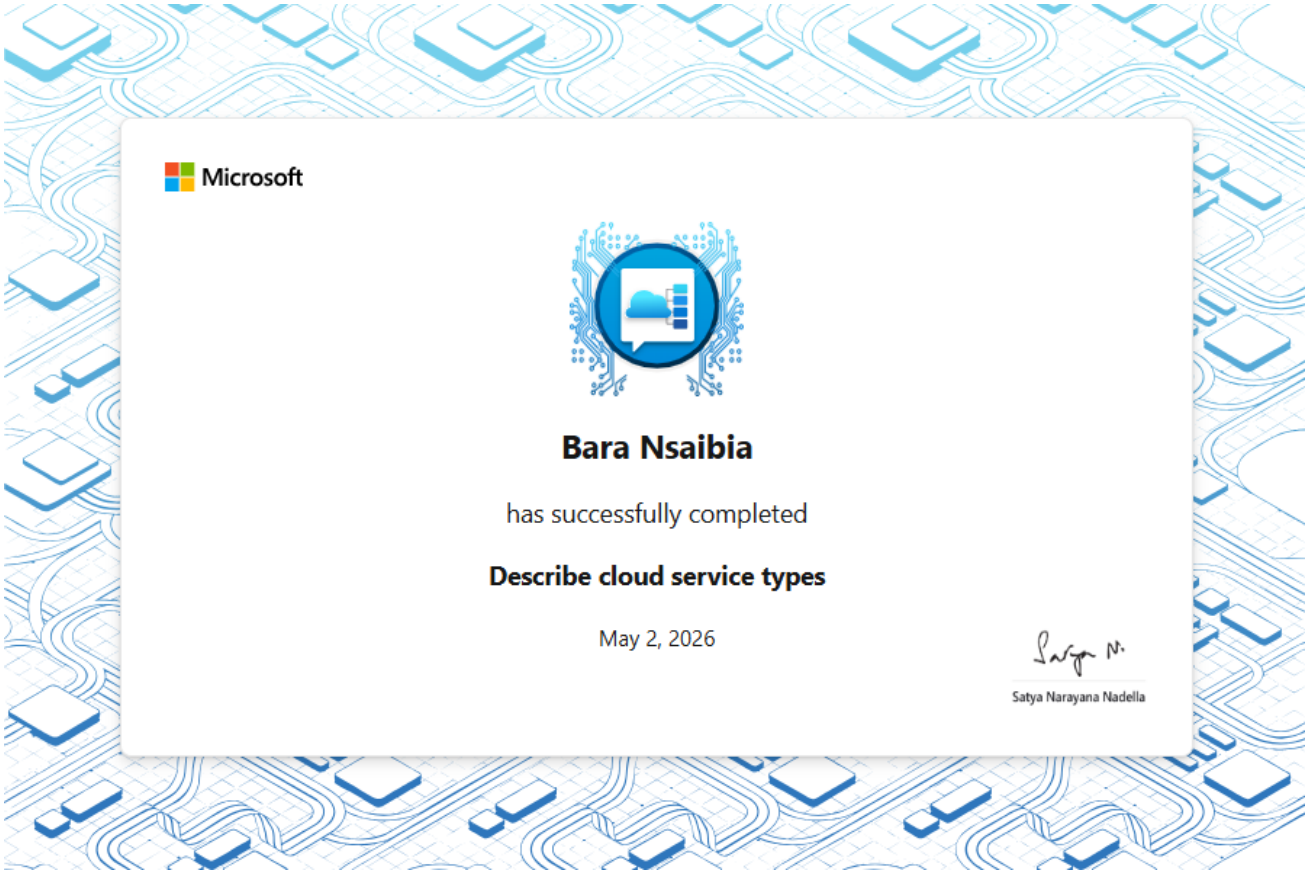

The badges presented below certify my acquisition of foundational knowledge in cloud computing through Microsoft's learning ecosystem, with a focus on cloud services, infrastructure, and modern deployment models. These certifications cover essential concepts such as cloud architecture, scalability, data storage, and service models, reflecting the growing importance of cloud technologies in today's digital landscape.

Through this training, I developed a clear understanding of the strategic benefits of cloud computing, including cost efficiency, flexibility, high availability, and the ability to scale resources dynamically according to demand. The programme also introduced practical use cases demonstrating how organizations leverage cloud services to optimize performance, enhance security, and accelerate innovation.

Microsoft cloud certifications are aligned with global industry standards and are highly valued across multiple sectors. This set of badges strengthens my technical profile by demonstrating my readiness to engage with modern IT infrastructures and cloud-based solutions. It highlights my ability to understand and apply key concepts that are essential for working in environments driven by digital transformation and distributed systems.

ADVANCED WORKSHOP CERTIFICATE — C ARTIFICIAL INTELLIGENCE & AIoT

Type of Document: Certificate of Participation / Completion
Issuing Authority: University of science /4C

The certificate presented below attests to my successful participation in a comprehensive workshop focused on Artificial Intelligence (AI) and Artificial Intelligence of Things (AIoT). This programme provided an in-depth exploration of how intelligent systems can be integrated with connected devices to create smart, autonomous, and data-driven environments.

Throughout this workshop, I was exposed to key concepts including machine learning fundamentals, real-time data processing, IoT architectures, and the interaction between hardware and AI models. The training emphasized practical applications, demonstrating how AIoT solutions are used in areas such as smart cities, industrial automation, and intelligent monitoring systems.

Participation in a workshop of this scope reflects a strong commitment to staying at the forefront of emerging technologies. It highlights my ability to engage with complex, interdisciplinary domains that combine software, data, and hardware innovation. This certification adds significant value to my profile by showcasing both my curiosity and my readiness to contribute to next-generation technological ecosystems driven by AI and connected systems.

Formal attestation of participation in AI and AioT workshop

CERTIFICATE OF PARTICIPATION — STRUCTURED PROGRAMME

Type of Document: Formal Attestation of Programme Participation
Sector: Educational / Social / Professional Development

This attestation documents my successful completion of or active participation in a formally structured programme. The issuance of such a document requires the fulfillment of specific conditions set by the organizing body, including attendance, contribution, and demonstrated engagement throughout the programme's duration.

Each certificate I have received represents a milestone in my professional and civic trajectory. Collectively, they illustrate a pattern of deliberate and consistent commitment to excellence, self-development, and contribution to organized social and educational initiatives. This particular document further strengthens the portfolio of formal recognitions that characterize my extra-curricular engagement.

▸ *Formal attestation of participation in a structured social or professional programme*

PARTICPATION AND WINNING THE NATIONAL HACKATON

Document Type: Formal Certificate of Participation in a University Program
Sector: Educational / Social / Professional Development

As part of our hackathon participation, our team developed an innovative application integrating AI-powered chatbots to present and promote our country's history in an interactive and engaging way. The project aimed to bring young people closer to their historical heritage through immersive digital experiences. Our effort was awarded third place, recognizing our creativity, teamwork, and commitment throughout the competition

Remark: Certificate of participation is currently pending from the university

Recipient of Third Place Award – University Hackathon

LEADERSHIP CERTIFICATE — ORGANIZATIONAL & PARTICIPATORY ENGAGEMENT

Type of Document: Official Certificate of Leadership & Participation
Issuing Authority: Faculty initiative in collaboration with CDS

These certificates presented below recognizes my active involvement in a leadership-focused programme organized in partnership with CDS, where I contributed both as an organizer and as a participant. This dual role reflects a high level of engagement, combining practical responsibility with continuous learning and personal development.

As an organizer, I was directly involved in the planning, coordination, and execution of activities, ensuring smooth operations and effective teamwork. Simultaneously, my participation in the programme allowed me to strengthen key leadership competencies, including communication, decision-making, adaptability, and team management.

This experience demonstrates my ability to take initiative within structured environments while maintaining a collaborative and results-oriented mindset. Certifications of this nature highlight not only participation, but also the capacity to assume responsibility and contribute meaningfully to collective objectives, reinforcing my profile as an active and committed member within academic and organizational ecosystems.

- *Active participation in a civic and community-oriented social activity*

ASSOCIATIVE LIFE — GROUP INITIATIVE

Type of Activity: Group Event / Collective Action
Scope: Associative or Institutional Collective Engagement

This image captures my participation in a group-based activity, reflecting the collaborative nature of the social experiences I have been part of. Group initiatives of this kind require a high degree of interpersonal coordination, shared responsibility, and alignment around a common goal — qualities that are central to both civic life and professional practice.

My involvement in collective activities such as this one has been instrumental in developing my leadership and teamwork capabilities. It has also provided me with exposure to diverse perspectives and working styles, enriching my capacity to contribute effectively within multidisciplinary and multicultural settings.

Group activity documenting collective civic engagement and associative participation

CERTIFICATE OF ACHIEVEMENT — RECOGNIZED CONTRIBUTION

Type of Document: Certificate of Achievement / Formal Recognition

Significance: Ministry of Youth and Sports – Tunisia (General Directorate for Youth), Regional Delegation of Youth and Sports, Sidi Bouzid

Type of Document: Official Certificate of Appreciation / Participation
Issuing Authority: Ministry of Youth and Sports – Tunisia (General Directorate for Youth), Regional Delegation of Youth and Sports, Sidi Bouzid

This certificate was awarded in recognition of active participation in a national volunteering camp organized under the national programme for environmental citizenship, held from 11 to 16 August 2026 in Sidi Bouzid. The initiative brought together youth volunteers to engage in community-oriented and environmental activities, reflecting the ministry's broader efforts to promote civic engagement, social responsibility, and environmental awareness among young people.

Through this experience, I contributed to organized volunteer activities alongside fellow participants, gaining practical exposure to teamwork, community service, and environmental stewardship within a structured national framework. The programme emphasized active citizenship and hands-on involvement, allowing participants to translate values of solidarity and civic responsibility into concrete action on the ground.

This certificate, issued by an official Tunisian governmental body, adds a meaningful dimension to my profile beyond technical skills — demonstrating civic engagement, teamwork, and a sense of social and environmental responsibility. It reflects my well-rounded involvement not only in technology and development but also in community life and national youth initiatives.

▸ *Participation in an organized social or environmentall event*

During this national volunteering camp organized by the Ministry of Youth and Sports, I presented a project proposal for a mobile and web application dedicated to promoting green and natural spaces across all governorates of Tunisia. The concept integrates a ranking and classification system with tangible benefits for participants, designed to encourage civic engagement and strengthen citizens' awareness and connection with their natural environment.

Competing against more than 20 participants, my proposal was selected as a winning idea, earning both an award and a medal in recognition of its innovation and relevance to national environmental and civic priorities. As a result of this recognition, the project was granted sponsorship from the Ministry to support its continued development — validating not only the technical concept but also its social impact potential at a national scale.

This achievement reflects my ability to translate a personal technical initiative (originally focused on Sidi Bouzid) into a scalable, nationally relevant proposal, and to defend it competitively in front of an institutional jury. It reinforces my profile as someone capable of combining hands-on development skills with strategic thinking, civic responsibility, and the capacity to secure institutional support for impact-driven projects.

*Recipient of First Place Award – **Ministry of Youth and Sports***

EVENT MANAGEMENT CERTIFICATE — ORGANIZATIONAL & LEADERSHIP EXPERIENCE

Type of Document: Official Certificate of Completion
Issuing Authority: Faculty-based programme in collaboration with 3ZERO

The certificate presented below attests to my successful participation in an Event Management programme organized within my faculty in partnership with the organization 3ZERO. This initiative was designed to equip participants with practical and strategic skills required to plan, coordinate, and execute professional events in structured environments.

Throughout this programme, I was exposed to key aspects of event management, including project planning, team coordination, communication strategies, logistics, and problem-solving under real-time constraints. The training emphasized hands-on involvement, allowing participants to engage directly in the organization and management of events.

This certification reflects my ability to operate effectively in collaborative settings and manage responsibilities within dynamic environments. It also highlights the development of essential soft skills such as leadership, adaptability, and organizational thinking—competencies that are highly valued across both professional and academic contexts.

- *Participation in an organized social or institutional event within a structured associative framework*

CERTIFICATE OF ACHIEVEMENT — RECOGNIZED CONTRIBUTION

Type of Document: Certificate of Achievement / Formal Recognition
Significance: Institutional Acknowledgement of Professional Contribution

The certificate below represents a formal acknowledgement of a specific achievement or contribution that was deemed worthy of official recognition by the issuing organization. The delivery of such a document reflects a rigorous evaluation process and confirms that the standards and expectations set by the institution were met or exceeded.

This certificate adds further weight to the portfolio of formal recognitions I have amassed, illustrating a consistent track record of delivering quality work within structured frameworks. It also serves as a testament to the credibility and professionalism I bring to every engagement, regardless of its scale or sector.

▸ *Official certificate of achievement recognizing a significant professional or civic contribution*

BUSINESS MANAGEMENT CERTIFICATE — AI-ENHANCED PROFESSIONAL TRAINING

Type of Document: Official Certificate of Completion
Issuing Authority: Internationally Supported Training Initiative (in collaboration with U.S. Embassy and partner organizations)

This certificate attests to my successful completion of a Business Management training programme integrating modern concepts of artificial intelligence and its applications in organizational strategy and decision-making. The programme was delivered under the support and supervision of internationally recognized institutions and organizations, ensuring a high standard of academic and professional quality.

The training combined core principles of business management with emerging AI-driven methodologies, equipping participants with forward-looking skills aligned with current global trends. Completion of the programme required active participation, engagement in structured learning modules, and, in certain components, performance-based evaluation.

Certifications issued within such internationally backed frameworks carry substantial credibility and added value. They reflect not only knowledge acquisition but also exposure to global standards, cross-institutional collaboration, and innovative approaches to management. This certificate therefore strengthens my professional profile by demonstrating my ability to integrate traditional business competencies with advanced technological insights in a rapidly evolving environment.

▸ *Official certificate of participation in an academic or professional programme*

CONCLUSION & PERSONAL REFLECTION

The experiences compiled in this report collectively define a dimension of my formation that no classroom alone could provide. Through deliberate and sustained engagement with institutions, organizations, and communities across different sectors, I have developed a professional profile that combines academic knowledge with practical wisdom, civic awareness, and interpersonal competence.

The formal recognitions received — in the form of certificates and official attestations from government ministries, syndicates, and professional bodies — attest to the quality and authenticity of these engagements. The photographs documenting group activities, institutional meetings, and community events speak to the human dimension of this journey: the relationships built, the challenges navigated, and the shared purpose that animated every initiative.

Looking ahead, I am committed to continuing this path of active professional and civic engagement. The values of seriousness, reliability, and commitment to the public good that have guided my experiences so far will remain the cornerstone of my professional conduct as I transition from student life into the workforce.
